

🛕 HAAS 🛛 Barth Haas' 🛞

Isohop®

Safety Data Sheet

1. IDENTIFICATION OF THE SUBSTANCE AND OF THE COMPANY

1.1 Product identifier	Isohop® Synonyms: Isomerized hop extract, 'Iso', Postfermentation Bittering, 'PFB'
1.2 Relevant identified uses of the substance or mixture and uses advised against	For use as an ingredient in brewing of beer
1.3 Details of the supplier of the safety	BarthHaas UK Ltd.
data sheet	Hop Pocket Lane, Paddock Wood, Kent, TN12 6DQ, UK Email: <u>sds@barthhaas.co.uk</u>
	BarthHaas / John I. Haas, Inc.
	1600 River Rd., Yakima, WA 98902, USA. Email: <u>info@johnihaas.com</u>
1.4 Emergency	+44 1892 833 415 (09:00 – 17:30 Mon- Thurs; 09:00 – 16:30 Fri, UK time)
telephone number	+1 509 469 4000 (office hours)

2. HAZARD INDENTIFCATION				
2.1 Classification of the substance or mixture	Classification according to Regulation (EC) No 1272/2008 [CLP]: - Skin Irritation Category 2 - Eye Irritation Category 2 - Skin Sensitisation Category 1			
2.2 Label elements	According to Regulation (EC) 1272/2008 [CLP]:			
- Hazard pictogram				
- Signal word:	- Warning			
- Hazard statemenet	 H315: Causes skin irritation H317: May cause an allergic skin reaction H319: Causes serious eye irritation 			
- Precautionary statement	 P280: Wear protective gloves and eye protection P302+P352: IF ON SKIN: Wash with plenty of soap and water P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P333+P313: If skin irritation or rash occurs: Get medical advice/attention. 			
2.3 Other hazards	None. No components are known to be PBT/vPvB or to have endocrine disrupting properties.			

Freigabe:/Approved 13.03.2024 12:05

3. COMPONENTS/INFORMATION ON INGREDIENTS

3.1 Subtances N/A

3.2 Mixtures

Component	Concentration (% m/m)	CAS no.	EC no.	REACH Registration No.	Classification according to Regulation (EC) 1272/2008 [CLP]
Potassium salts of Isohumulones	30	94349- 84-5	305- 203- 0	01-2120766316-50- 0000	Acute Tox. 4 H302, H312 Skin Corr. 1 H314 Eye Damage 1 H318 Skin Sens. 1 H317
Water	Balance	7732- 18- 5	231- 791-2	N/A	Not classified

<u>Note</u>: *In Vitro* Assessment of the Skin Corrosion Potential of Isohop [30% m/m solution of EC 305-203-0 in water] according to OECD Test Guideline 431 (reconstructed human epidermis (RHE) Test Method) confirms that the mixture is **not** corrosive to skin. See Section 2.1 for final classification of Isohop [20% or 30% m/m solution of EC 305-203-0 in water].

4. FIRST AID MEASURES

4.1 Description of first aid methods:

 Inhalation Skin contact Eye contact Oral ingestion 	 Remove to fresh air Wash skin thoroughly with soap and water Flood the eye with plenty of water. If any symptoms persist obtain medical attention. Rinse mouth out with water and drink a portion of water (<i>ca</i>. 200ml). Vomiting may occur but should not be induced. Obtain medical attention if symptoms persist.
4.2 Most important symptoms and effects, both acute and delayed	Skin and eye irritation
4.3 Indications of immediate medical attention and special treatments needed	Action as indicated in Section 4.1 above

5 FIRE AID MEASURES

5.1 Extinguishing media Carbon dioxide, dry powder, foam.

5.2 Special hazards arising from substance or mixture	The product is an aqueous solution and is therefore not expected to burn. No known unusual fire or explosion hazards.
5.3 Advice for firefighters	Wear self-contained breathing apparatus

6. ACCDIENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures	Wear appropriate protective clothing - see Section 8.
6.2 Environmental precautions	Small amounts (<10 litres) can be safely diluted with water and flushed into the drain. Do not discharge large amounts onto the ground or into watercourses – hold for disposal, or in the case of spillages, deal with this as indicated in Section 6.3
6.3 Methods and materials for containment and clearing up	Contain spillage using earth, sand or other inert material. Transfer to suitable sealed container prior to disposal. Flush area with hot soapy water to remove final traces. Use adequate ventilation or a respirator if in a confined area.
6.4 References to other sections	See Section 8 for appropriate protective clothing. See Section 13 for disposal.

7. HANDLING AND STORAGE

7.1 Precautions for safe handling	Avoid excessive contact with product. Use appropriate protective clothing as indicated in Section 8. Wash hands after use.
7.2 Conditions for safe storage, including any incompat	Store at 2 – 8 °C (36 – 46 °F). Keep container closed. Store in original container or suitable high-grade stainless steel, low silicate glass or high-density polyethylene. Protect from light.
7.3 Specific End Uses	For use as a food ingredient. It should be used in accordance with applicable food legislation.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control Parameters Not applicable.

8.2 Exposure Controls:

-	Engineering Controls	-	Not required
-	Eye/Face Protection	-	Safety googles
-	Hand Protection	-	PVC, rubber, or nitrile gloves are all suitable and should be worn. Breakthrough time estimated as 150 minutes, 136 minutes and 210 minutes respectively.
-	Skin Protection	-	Not normally required. Long-sleeved workwear is recommended to avoid accidental skin contact.
-	Respiratory Protection	-	Not required
-	Environmental exposure controls	-	Not required

9. PHYSICAL AND CHEMICAL PROPERTIES			
9.1 Information on basic physical and chemical properties			
a) Physical state	Liquid		
b) Color	Pale yellow to amber		
c) Odor	Hoppy, resinous		
d) Melting point/Freezing point	Not practical to measure/ < 0°C		
e) Boiling point	93 – 104 °C		
f) Flammability	Non-flammable		
g) Lower and upper explosion limit	N/A		
h) Flash point	Not applicable due to high water content		
i) Auto-ignition temperature	N/A		
j) Decomposition temperature	No hazardous decomposition when used for its intended use.		
k) pH	7.5 - 10.5		
l) Kinematic viscosity	10 - 20 mPas at 20 °C		
m) Solubility	Miscible. Will precipitate if acidified.		
n) Partition coefficient n-octanol/water (log value)	LogPow for purified active component (hop iso- α -acids) is 2.7 – 4 at pH 7		
o) Vapor pressure	Vapour pressure of hop iso- α -acids is <i>ca</i> . 9 x 10 ⁻⁹ Pa		

Isohop_SDS Rev. 13		HAAS	BarthHaas' 🤅	B BHPA bops with character
p) Density [kg/m³]	1000 - 1200			
q) Relative vapor density	Not practical to mea	Isure		
r) Particle characteristics	N/A			
9.2 Other information	N/A			
10. STABILITY AND R	EACTIVITY			
10.1 Reactivity	No reactivity hazard	s known.		
10.2 Chemical Stability	Stable if stored acco	rding to Section 7.2 and 10	0.5	
10.3 Possibility of Hazardous Reaction	None known			
10.4 Conditions to Avoid	Avoid strong oxidizi material	ng agents. Precipitation n	nay occur on mix	ing with any
10.5 Incompatible Materials	Precipitation may o	ccur on mixing with any r	naterial.	
10.6 Hazardous Decomposition Products	None known			

11. TOXICOLOGICAL INFORMATION

11.1 Information on hazard classes as defined in Regulation (EC) No. 1272/2008 Isohop contains modified hop extracts (potassium salts of hop iso- α -acids, EC 305-203-0), which may be safely used in beer, e.g., in accordance with US FDA regulation 21 CFR 172.560.

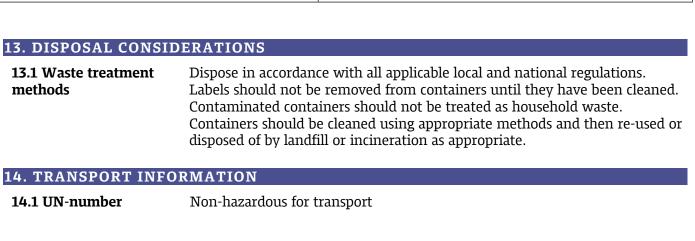

a) Acute Toxicity	At concentration present, the material is not classified as hazardous. Estimated ATE value (oral, dermal) is 3333 mg/kg bw for 30% m/m solutions.
b) Skin Corrosion/Irritation	Potassium salts of hop iso- α -acids, EC 305-203-0 classified as irritant to the skin according to OECD Guideline 439 (In vitro skin irritation). Therefore, a mixture containing 30% EC 305-203-0 will be classified as Skin Irritation Category 2. In vitro assessment of the skin corrosion potential of Isohop [30% m/m solution of EC 305- 203-0 in water] according to OECD Test Guideline 431 (reconstructed human epidermis (RHE) test method) confirms that the mixture is not corrosive to skin.
c) Serious Eye Damage/Irritation	Isohop [30% m/m solution of EC 305-203-0 in water] is classified as Eye Irritation Category 2 as a precaution based on skin irritation results and based on pH 7.5 – 10.5 (see Section 9).
d) Respiratory or Skin Sensitization	EC 305-203-0 is classified for skin sensitisation by reading across from Hop Extract (EC 232 504-3), which is classified as a skin sensitiser according to in vitro methods. EC 305-203-0 present >1% in Isohop, hence Isohop is classified as Skin Sensitisation Category 1. The vapour pressure of EC 305-203-0 is very low: 9 x 10 ⁻⁹ Pa (estimated by EPISuite TM) and therefore respiratory sensitization is not applicable.
e) Germ Cell Mutagenicity	OECD Guideline 471 (Bacterial Reverse Mutation Assay) on read-across substance Hop Extract EC 232-504-3: not mutagenic. Bacterial Reverse Mutation Assay on 40% iso-alpha acids: not mutagenic. In vitro mammalian cell gene mutation assay (CHO/HGPRT Mutation Assay) on read-across substance Rho-iso-alpha acids: not mutagenic.
f) Carcinogenicity	Long history of safe use as a component of beer. Hop iso- α -acids are a natural of beer from the traditional brewing process. Bacterial reverse mutation assay: not mutagenic.
g) Reproductive Toxicity	Weight of evidence indicates lack of reproductive toxicity. Long history of safe use as a component of beer. Iso- α -acids are approved food additives for beer in the USA, under 21 CFR § 172.560. Isohop (30% aqueous solution of iso- α -acids present as their potassium salts) was assessed to be GRAS ("generally regarded as safe") by John I. Haas, Inc., USA, in 2008.
h) STOT- Single Exposure	Weight of evidence indicates safety when used for its intended use. See (g) above.
i) STOT-Repeated Exposure	Weight of evidence indicates safety when used for its intended use. See (g) above.
j) Aspiration Hazard	Not an aspiration hazard.
11.2 Information on other hazards	N/A

12. ECOLOGICAL INFORMATION				
12.1 Ecotoxicity	Read across from hop extract EC 232-504-3, toxicity to fish: Carassius auratus (goldfish) - Etude pharmacologique de l'action du lupulin et de la fleur d'organer sur le poisson. <i>Pharmaceutica acta Helvetiae</i> (1953) 28 (7-8), pp.183-206: lowest dose causing adverse effects estimated by calculation as <i>ca</i> . 80 mg/l.			
	Toxicity to Daphnia and other aquatic invertebrates: Active component of Isohop, viz. potassium salts of hop iso-α-acids EC 205- 303-0: EC50 - <i>Daphnia magna</i> (Water flea) – >57 mg/l - 48 h. NOEC – <i>Daphnia magna</i> (Water flea) – 57 mg/L – 48 h.			
	Toxicity to freshwater algae: Active component of Isohop, viz. potassium salts of hop iso-α-acids EC 205- 303-0: ErC50 - <i>Pseudokirchneriella subcapitata</i> strain: CCAP 278/4 – >100 mg/l - 72			
	h. NOEC - <i>Pseudokirchneriella subcapitata</i> strain: CCAP 278/4 – >100 mg/l - 72 h			
12.2 Persistence and Degradability	Ultimate biodegradation (natural product).			
12.3 Bioaccumulative Potential	Natural product, not expected to bioaccumulate.			
12.4 Mobility in Soil	Log Koc 1.7 – 1.9 (modelling by EPISuite™)			
12.5 Results of PBT and vPvB assessment	This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.			
12.6 Endocrine disrupting properties	Not been assessed as an endocrine disruptor. We are not aware of any information indicating that hop iso-a-acids have endocrine disrupting properties.			
12.7 Other adverse effects	N/A			

14.2 Proper shipping name	Non-hazardous for transport
14.3 Transport Hazard Class	Non-hazardous for transport

- 14.4 Packing Group Non-hazardous for transport
- **14.5 Environmental** Non-hazardous for transport **Hazards:**
- **14.6 Special Precautions** Non-hazardous for transport **for user**
- **14.7 Maritime transport** Non-hazardous for transport **in bulk according to IMO instruments**

15. REGULATORY INFORMATION

15.1 Safety, Health, and	For food use
Environmental	Germany: Water contaminant class 1 (self assessment) according to VwVwS
Regulations	from May 17th 1999 appendix 3. Do not discharge onto the ground or into watercourses. Wassergefährdungsklasse: WGK1 (Selbsteinstufung): schwach wassergefährdend Gemäß Anhang 3 der Verwaltungsvorschrift wassergefährdender Stoffe (VwVwS) vom 17.05.1999 Kenn-Nr.: 6390
15.2 Chemical Safety Assessments	N/A – for food use.

16. OTHER INFORMATION

a) Revision information	Updated according to EU 2020/878
b) Abbreviations	CAS Chemical Abstracts Service
	CLP Classification, Labelling and Packaging Regulation (EC) no. 1272/2008
	EC European Community/Commission
	PBT Persistent, Bioaccumulative and Toxic
	REACH Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (EC) no. 1907/2006
	vPvB very Persistent, very Bioaccumulative
c) Key literature references and	REACH registration dossiers for EC 305-203-0 for EC 295-619-8
sources for data	Glove breakthrough time: estimated by using cresol breakthrough time: Massey, L.K (2003).
