6. ACCDIENTAL RELEASE MEASURES

6.1 Personal Protection Wear appropriate protective clothing – see Section 8.

Ensure adequate ventilation and control of dust to avoid forming a dust-air mixture.

6.2 Environmental

Precautions

Do not discharge onto the ground or into watercourses.

6.3 Methods for Cleaning

7. HANDLING AND STORAGE

7.1 Precautions for Safe Avoid generating excessive dust. Avoid excessive contact with product

Handling Use appropriate protective clothing as indicated in Section 8. Wash hands after use.

7.2 Conditions for SafeTo guarantee quality avoid heat, moisture and strong odours during storage. Pellets

should not be exposed to temperatures above 20 °C (68 °F) since it is possible that gases are formed from hop constituents. The resulting pressure increase may cause

bursting of the foils. Consequently the pellets will be exposed to air and oxidation

resulting in a considerable deterioration of quality. Suitable storage containers are

thick gauge laminated foil bags, stainless steel, and lacquered mild steel.

7.3 Specific End Uses The substance is manufactured for use as a food ingredient and for such uses is not

subject to registration via REACH (Regulation (EC) No.1907/2006). It should be

used in accordance with applicable food legislation.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION
